

# LEARNING ENGLISH INDEPENDENTLY

ENGLISH LANGUAGE SPECIALIST JAN DORMER

## GENERAL TIPS

- Focus on activities that you like and that are motivating;
- Look for resources and activities at your language level;
- Meet with friends: "Facetime", WhatsApp, etc.;
- Remember that you learn more using English - not just doing grammar or vocabulary exercises.

## COMMUNICATE IN ENGLISH THROUGH SOCIAL NETWORKS

For instance, create a WhatsApp group with friends to practice your English. Use complete sentences, and no switching between Portuguese and English!

## READ WIDELY KNOWN STORIES IN ENGLISH

Fairy tales, historical events, parables or other stories that everyone knows. You can access many of these stories online, often at different levels of English.

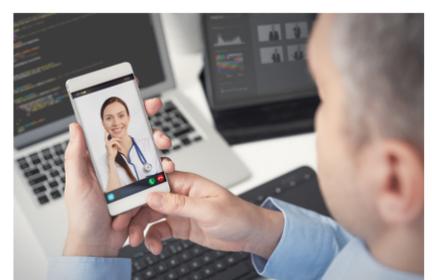

## PLAY GAMES IN ENGLISH

Use traditional games such as scrabble, checkers and chess, or a game in English, like Monopoly. Create your own games, using the vocabulary and grammar you want to practice!

## CREATE AN ENGLISH CLUB

It can be useful and very fun! At [americanenglish.state.gov](http://americanenglish.state.gov), for example, there is a guide that can help you build your own club!
